STIMPLEX® is a supplementary crop biostimulant derived from *Ascophyllum nodosum* seaweed. It is a vital part of a balanced nutritional program designed to maximize the production of quality fruit, vegetables, non-food and ornamental crops.

APPLICATION INSTRUCTIONS

ROOT DEVELOPMENT AND TRANSPLANT SOLUTION: Soak cuttings for 3 minutes in a **STIMPLEX®** solution of 10-12 ml/L of water before planting them to take root. Immerse the roots in a solution of 5 ml/L of water immediately before transplanting.

FOLIAR APPLICATIONS: **STIMPLEX®** is more effective through the leaves. It can be applied with any fertilizer and with the application equipment used for pesticides. Apply with sufficient water for good crop coverage, 100 to 1000 L of water per hectare when using foliar spraying equipment.

Product suitable for use in Organic Agriculture conforming to regulations n° 834/2007 and 889/2008 and to NOP Regulation. Inspected by ECOCERT SA F - 32600.

Stimplex® is powered by Acadian BioSwitch™ technology. Acadian BioSwitch™ technology is Acadian Plant Health™'s stamp of approval for quality and product performance. It gives growers the confidence of a proven technology that works where it matters most – in the field.
